H1N1 Update

PLYMOUTH, Ind. – The Marshall County Health Department is hosting an H1N1 vaccination clinic at Culver Middle School. The clinic will target ages 6 months to 18 years old. Other target groups are encouraged to check with their primary care providers.

The H1N1 clinic is scheduled for Thursday November 19th from 4 to 6 p.m. at the Culver Middle School. To accommodate school bus traffic, parents are asked to wait until 3:30 p.m. before arriving. Parents need to be present for elementary students and younger.

The age group of 6 months to 18 years old is the largest target group and school clinics can reach them most efficiently. Limiting the spread of H1N1 in this group will limit H1N1 in the community as a whole and help protect everyone.
